Subject: 2016 CGMP Zoning Request

Re: Parcel 267189000

Dear Clark County CGMP Planning Board,

I tried submitting comments for the record on the Comprehensive Growth Management Plan Update website, but because I didn't receive sure confirmation of my submission, I decided to also forward my comments in this email.

I am asking that my parcel be considered for R-5 zoning during the 2016 Growth Management Plan update. It is currently zoned FR-80, but is bordered by R-5 zoning and has existing easements in place and ready access to both CPU power and water from Gabriel Rd. Although my desire is to continue growing timber on this piece of property, I would like to have the ability to exercise the future option of selling property to my children or to market a portion of it if necessary.

Sincerely,

Troy Uskoski
