Congratulations to Community Planning!

The Western Region Growth Management Hearings Board issued an order today stating that Clark County has achieved full compliance with the Growth Management Act with respect to its 2007 Comprehensive Plan update. This ends almost seven years of appeals regarding the validity of that update's de-designations of thousands of acres of agricultural lands. To summarize the outcome over the years, we won some and we lost some, and as of today, the Comprehensive Plan designations of lands countywide comply with the requirements of the law.

If you have questions regarding this ruling, please let me know.
