Dear Commissioners,

I just tried to send a comment on the county web page regarding the comp plan update, using the link that was provided. When I tried to send it, it was not able to be sent and did not go through. How many times has this happened to other landowners? Or, is just me. In the past faxes and mailings took almost two weeks to reach the commissioners and on-line doesn't seem to be much better. Please make it easier for landowners to provide comments over the 2016 comp plan process, instead of having to work through the maze that is now available. Thanks!
