**Comments:**

I am in full agreement with the redesignation of AG-20 to AG-10. The present size is very unpractical for AG in Clark County. The large farms have all moved or in the process of doing so. Twenty acres for small labor intensive agriculture is too much for most to handle. Those that desire to just live on twenty acres have no idea how much equipment and time is required to do this and many of these properties go into disrepair for the lack of this preparation.
