Tom

All properties in the county have both a comprehensive plan designation and a zone that implements that designation. Currently there are two comprehensive plan designations for forest lands: Forest Tier I and Forest Tier II. These are implemented by FR-80 and FR-40 zones, respectively. (The number refers to the minimum acreage.)

For the 2016 comprehensive plan update, there are two things being proposed with regard to forest lands:

- 1) Change to a single comprehensive plan designation –(F), that would then be implemented by FR-80 and FR-40 zoning. This is mostly a change on paper, but the result is that it would be easier to change from being zoned FR-80 to being zoned FR-40.
- 2) Reducing the minimum lot size for FR-40 to 20 acres, which means the new zoning, if adopted, would be FR-20.

Let me know if you have other questions.

Marilee: Thank you. I have located the answers (FR-40 & FR-20) on the page you sent me, BUT I was unable to find the "Current Comprehensive Plan designation FR-2 and FR-40". Can you please help with finding these?

T

Tom

I am sorry about your experience yesterday

You have e-mailed our ADA helpline for which I am unable to handle your question. I am unsure where this card originated.

However, I have included Holly in this e-mail. She works in our Community Development department and may be able to get your request to the appropriate person.

Thank you

Laura

To: Cnty ADA Information,

Subject:C C C G M Plan

I tried many times today to get someone on the phone to answer my questions and finally gave up as NO ONE answered any of the 5 numbers I called

We received a card in the mail about proposed changes that might impact this property

Current zoning is FR-40/Proposed is FR-20

Current comp plan designation is FR-2/Proposed is FR

WHAT do these terms mean?

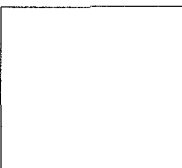

"Thank you"
