Subject: Comprehensive growth plan

We would like to make a public comment for the Comprehensive Growth Management Plan to request that no action be taken on adopting or narrowing any of the alternatives until after the full, five-member council is seated in January 2016. The public has clearly stated that we wish to be represented by a five member council. The Growth Management Plan is so important to our present and future quality of life. Please wait until the full five member council is seated and able to make decisions on this issue.

Thank you

Greg and Deborah Nelson
