

Comments ? Ideas ?

Keep old growth trees - + large natural areas
Horses not everywhere - only in larger parks to eliminate damage -
Solve the English Ivy problem at Whipple Creek - awful!

Protect existing trees + vegetation as much as possible. New construction -
try to save trees. And watch for damage done to trees in existing parks.

Responsible horse / dog owners care about the trails / parks
they use and take care to not cause damage. They also
volunteer their time to maintain / improve those areas for
further enjoyment of all 😊

Keep some minimally developed with trails
and limited facilities. People can walk and
see a river and a less "busy" space.

Comments?
Promote wildlife habitat in all parks.
B

A woman with short blonde hair, wearing glasses and a blue and white patterned sweater, is writing on the whiteboard with a blue marker.

Two women are standing in the background, looking at other displays. One woman is wearing a grey sweater and a black patterned shawl. The other woman is wearing a dark jacket and a black bag.

Trails Connecting across Clark Cour

Horse owners need more parking area for trailers

46 miles of trails have been built across Clark County. With limited funding, where should the highest priorities be placed for making future trail connections?

What are your top three (3) priorities...

Focus on trails that are...	1st choice	2nd choice	3rd choice
In natural areas	● ● ●	● ● ● ●	● ●
Connecting to parks	● ● ● ● ●	● ● ● ● ●	● ●
Accessing water	● ● ● ● ●	● ●	●
Crossing the county (N-S, E-W)	● ●	●	
To schools			● ●
Linking neighborhoods			
Along rivers and streams	● ● ● ● ●		
Other...? <i>Equine use</i> <i>Horse friendly trails</i>	● ● ● ● ● ● ● ● ●	● ● ● ● ●	● ● ● ● ● ● ●
