Subject: County's 20 yr. plan

Comments:

Alternative #4 is not in the the interest of Clark County Citizens. There is something very wrong with the individual hired by the county to propose this. It completely opposes the intent of the Growth Management Act. I have seen the bad decisions that have shaped this county since 1966. I worked as a Planning Administrator in Washington State, and I graduated from Evergreen High School. in 1968. Alternative 4 is shameful.....it will benefit a handful, while the rest of us pay more taxes to bring odd parcels services they lack ten to twenty years down the road. In the meantime beautiful land will be lost to future generations....what are you thinking?....get a true, real, trained County Planner to look at Alternative 4. Then make sure it meets the intent of the Growth Management Act.
