Subject: Alt. 4 needed

Comments:

CCCU understands that Alt. 4 is proceeding and will be allowed to advance through the public process. This alternative was needed to address the many various issues concerning the rural and resource lands updates. Clark County needs an alternative that truly defines our unique rural character, and which responds to the life style preferences of rural residents as expressed in the comments in the public record, and that is supported in the 2012 USDA Ag. Census Report, County Profile, our vibrant 4-H and equestrian communities. Hopefully, Alt. 4 will respond to the expressed visions of rural character through a combination of options relating to density, and recognition of historical development patterns.
