Mark,

Chris Horn called me this morning recommending that the Option-A maps be removed from the Grid.

My follow up phone call with him revealed that we misunderstood the conversation he and I had last week that led me to believe that we were following his recommendations regarding those maps .

The bottom line is that he recommends keeping the Option-A maps on file as potential options, but to pull them from the Grid and to not include them in the Hockinson Open House.

I value Chris Horn's counsel and want to follow the best recommended process. Please follow his recommendation and remove the Option-A maps from the Grid.

He recommends that both Open Houses present the same maps. That means that the six original maps that include the three with and the three without the current zoning overlay should be presented at Hockinson.

I apologize for misunderstanding Chris's earlier recommendation and for the extra work this has caused you.

Thank you for all that you do,

David Madore
