Re: Western Washington Growth Management Hearing Board - Compliance Hearings for the Poyfair court orders and Court of Appeals Division II court decision

Dear Councilors,

Clark County Citizens United, Inc. continues to research whether or not Clark County complied with the court orders of Superior Court in the 1997 Poyfair orders and the 1999 ruling by the Court of Appeals, Division II. CCCU has exhausted possibilities on the state level, when Jim Malinowski physically went to the Secretary of State office to review all past records of the WWGMHB. CCCU was directed to that agency, by the Hearing Board office, because of the past dates. In all of the approximately 20 WWGMHB boxes that were provided by the agency and examined by the agent and Jim, it was determined that there were no WWGMHB records, after 1995, and particularly regarding Clark County compliance to those court orders. CCCU did find other documents from HB conversation, when Agri-forest and Rural Centers were revisited by the county. But it appears that those documents were never filed with the HB records and do not show up in the archives at the state level. Even though those two items were reviewed, the rest of the orders were ignored regarding OFM projections, SEPA, public participation, unauthorized formula, and ignoring existing development prior to 1994. There is only one other place to look, and that is the Clark County Prosecuting Attorney's office. CCCU will request records from that office of all information regarding compliance to those court orders, as soon as possible.

Sincerely,

Carol Levanen, Ex. Secretary
Clark County Citizens United, Inc.
