Dear Councilors,

This forwarded document is all important to the discussion of water quality and available water regarding the impact of Alternative 4. Please pay special attention to pages ES-4, ES-21, ES-23 (low priority), ES-24, ES-28, (domestic wells), Sec. 2 - Tidally Influenced Reaches - 2-4,2-9,2-10.2-11, 2-14, Management of Water Supplies - 3-6,3-7, 3-28, 3-33, (low priority) 3-35, Manage Stream Flows - 4-31, Management of Ground Water Quality - 6-1, 6-3, 6-4, 6-22, 6-26, One need look no further than this document, that was agreed upon by numerous entities as the official document for ground water in Clark County. The document demonstrates that there is low priority as regards domestic wells, as their impact is minimal.

Sincerely,

Carol Levanen, Ex. Secretary
Clark County Citizens United, Inc.
P.O. Box 2188
Battle Ground, Washington 98604

Hello Carol,

Attached is some light reading. I hope it helps.
