Comments:

If we are to thrive as a county growth must be managed and controlled. It is my view that Alternative 1 and 3 are the only viable options. Alternative 4 should not be consider as it will do grave environmental damage to rural Clark County. Growth should occur where there are services available for that growth. Ie water, sewer, roads, etc. Alternative 4 would create the possibility for to many stresses on the rural environment. Please consider alternatives 1 and 3 for smart and manageable growth plan for Clark County
