**Subject:** Fw: Incomplete and faulty public record for the Record and the 2016 Comprehensive Plan update

Dear Councilors,

This information regarding public testimony, for the September 17, 2015 Planning Commissioner deliberation hearing, is not only incomplete but most of it is irrelevant. The purpose of the hearing was for the Commission to hear and consider the public comment regarding the four alternatives being proposed in the 2016 Comprehensive Plan update. But, forty-five pages of that record consisted of court case information requested by Mr. Orjiako and submitted by county attorney, Christine Cook, to counter CCCU, Inc. testimony. CCCU saw nothing in that same record, of the county submitting testimony in opposition to the many pages from the Friends of Clark County and Friends of the East Fork, who are one in the same. Most certainly, it appears that fairness and public participation requirements of the GMA just simply went out the window. Where did all the missing testimony go? It will be interesting to find out.

Sincerely,

Carol Levanen, Ex. Secretary, CCCU, Inc.
