Oliver-

Evidently Susan is sending these emails to our corporate office still. We have not responded to her. I am forwarding for your records.

Subject: Draft EIS Clark County Agriculture & Forestry lands

Hello Mr. Ruby,

Would you please forward any information regarding how the agricultural and forestry maps were created for the Clark County draft seis? We would appreciate specific details on how "prime" and "good" soils were defined.

In addition, we would appreciate specific details on how the soil capabilities map was created, and what soils were identified in the process. We have copies of the NRCS Soil Survey Manual for reference.

Appreciate any timely assistance you may have to offer. Kindly respond to Clark County Council Chairman David Madore at David.Madore@clark.wa.gov.

Thank you,
Susan Rasmussen
