Honorable CC Councilors:

RE: GMA 'preferred alternative'

Again I am going to ask what the heck is going on down there? Yet again you are not following procedures and there seems to be no rhyme or reason how GMA is being tossed to the wind to push someone's personal agenda to allow more sprawl. Clark County Done Deals are in the wind and the taxpayers will pay dearly for this for future generations to come. Why is the RILB hearing after this hearing or should I ask why it wasn't done first? Should all other hearings be done before the county starts the preferred alternative and opens Pandora's box for lawsuits? I also thought the comment period for GMA was done and you had your hearing? Are

you as confused as you leave your citizens? Is this what is in the best interest of all citizens or just a handful?

Alternative #4 is not a sound goal for GMA and is an agenda being pushed. Where are the jobs?

Listen to what the planning commissioners suggested but again here we go again because someone down there doesn't like what is being proposed. Keep the barn door open and watch this Community come crashing to its knees.

Our roadways are failing now and you plan more growth to the north??

By the way if one clicks on the link sent along with the email it comes up to a letter that is the same from some one else there at the county. ooops.

Sincerely,
Lynn Carman
