BOARD OF
COUNTY COUNCILORS

Dear County Councilors;

The City of Camas has been working in good faith to update its comprehensive plan by the required adoption date of June 2016. Together with our partner cities and the county the City began this update process in 2013. As we have collectively moved forward through this effort the City of Camas has expended a considerable amount of work and expense to conduct a robust and transparent public involvement campaign, the City predicated on the assumptions that were mutually agreed upon in June 2014. While the City respects the desire to explore and vet additional information throughout the update, we equally value consistency and predictability of process. The City of Camas has provided consistent feedback to the Board of Councilors regarding concerns with Alternative 4 not only for its delay of the comprehensive plan update process, but also for its potential impacts to the community long term should it be accepted and later implemented.

The City of Camas is confident in its planning work done to date and are tracking towards adopting our plan by the mandated date of June 30, 2016. Changing the planning assumptions will have a considerable impact on the timeliness of the process, decrease trust in the process, increase costs associated with the delay, and delay the City of Camas' ability to meet its obligations for concurrent adoptions of an updated comprehensive plan.

The City of Camas has consistently supported Alternative 3 to be used as the preferred alternative along with most other cities and we reaffirm this position through this letter. The City requests that the County maintain the current assumptions that were adopted in 2014 and to select Alternative 3 as the preferred alternative. We appreciate your time and consideration in this matter.

Respectfully,

Scott Higgins
Mayor
