Oliver,

The revised Rural map is complete. Here is the link to the PDF file.

Oliver (and Ken),

Please update the one PDF file that includes that one parcel that was corrected from R-10 to R-5 on our Planning site and provide Rebecca with a copy for the Nov 24 entry of the Grid

Since you did not identify any problems with the AG and FR layers of the proposed Alt-4 Maps, we will simply copy them from the Oct 20 entry of the Grid to our Nov 24 entry for our Comp Plan Hearing

Thank you,

David

Oliver (and Ken),

I see that your staff report from last night pointed out one odd cluster remainder parcel that was zoned R-10 for the proposed Alt-4 map

Thanks for catching the oversight. I updated the proposed Alt-4 map this morning to correct the omission. Please be sure that our materials going forward incorporate that correction.

If there are any other errors, suggested corrections, or recommendations, please let me know so we can all successfully advance an optimized plan that is known to be free from errors.

Thank you,

David
