Christine,

That is perfect. Thank you,

David

Hello, Mark,

I have discussed your request for advice with both Chris Horne and Oliver Orjiako.

Our advice is that with respect to assisting in creating any variation on Alternative 4 or the DSEIS, which the Councilor will apparently bring forward at the October 20 hearing, Planning may do so only upon your direction. Further, that direction must come following the vote of a majority of the BOCC in an open public meeting.

If you have further questions regarding this, please let me know.

Chris

Hello Mark:

FYI. Please, advise. This now goes into our comp plan index. Thanks

Best,

Oliver

Subject: Comp Plan master LPA and documents

Oliver,

Heads up. Please understand that I am working to provide a concise definition of our Comp Plan Update Locally preferred Alternative. That creation is appropriately the responsibility of the policy makers which are the County Councilors.

I am diligently working to apply the input from the DSEIS and the public process to create the LPA that is to be an optimized hybrid. As we move toward finalizing the final recipe to bake the cake, we need to work together as a team. I will submit my proposals for the final maps, list of changes, concise description of the LPA, definition documents, and DSEIS corrections.

I welcome planning staff's collaboration and input to help me propose the documents for publication and consideration at our October 20 hearing. If you would like to propose any documents, please work with me to ensure that we are on the same wavelength first.

It is important that we plan ahead and coordinate this process so there are no surprises. Please let me know when you can meet.

Thank you,

David
