Mr McDonald,

I will copy and paste your records request into our web portal. You will receive notification via that avenue as it helps us with tracking and archiving.

Regarding the work session, I received a draft copy of assumptions this morning and linked immediately, it should be live within 15 minutes. I'll attach for you to review as well.

Linnea

**Subject:** RW Thorpe

Dr. Orjiako:

I looked at the Grid this morning for tomorrow's work session and saw that RWT consultants is going to give a presentation. However, when I clicked on the link, it did not link to any RWT document. I note that the Amended contract with RWT states the following:

2) Step 1 Review Planning Assumptions and **provide professional opinion on the validity of the assumptions and whether they are fact based.** Target December 23, 2015 to December 30, 2015 (emphasis supplied)

If RWT has generated a "professional opinion" that has been provided to the county, I would appreciate receiving a copy prior to the WS scheduled for tomorrow. Also, to the extent that there are "public records" of communications between staff, and/or council members, and the consultants (both ESA and RWT) from December 8, 2015 to the present, please consider this a formal request for those public records (I have copied Ms. LaRocque with this e-mail).

Thank you for your continuing professionalism during our Comprehensive Plan update.

026884

Best Regards,

David
