**Government control of Facebook - Clark County's new agenda:**

Yesterday revealed more of our county government's continuing transformation to the dark side by the new liberal majority on the Clark County Council helped along by our county manager and prosecuting attorney's office.

The all-day retreat at the Fairgrounds pushed for additional measures to silence the voice of the conservative minority remaining on the Clark County Council. Here is one of them.

Government control of Facebook:

Private Facebook pages of citizen representatives should be turned over to the county and hosted on county servers. The county will be the controlling authority over all posts, comments, and private messages.

The justification, of course, is for the public good of our community so the county can ensure compliance with evolving case law governing public records.

Once hosted by the government, the enforcers would then be in the socially responsible position to prescribe politically correct standards for elected citizen representatives.

The discussion is to be continued in a future work session. I said nothing as they foolishly debated how to violate our First Amendment.

"Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press, or the right of the people peaceably to assemble, and to petition the government for a redress of grievances."

Notice that this Facebook page is my newspaper. Freedom of the press and freedom of speech, once lost, would complete our transformation to the dark side.

That will not happen on my watch – not without a fight.

Steven Cox Lack of transparency requires safeguards to ensure only one side of events is presented and without time for public examination and discourse Censorship is how we will be controlled and elected officials will decide issues behind closed doors, meetings with public will only be for show Public information will be limited or denied entirely because the enlightened ruling class know what is best for us. This is not a futuristic syfy theory, it is happening now This scares me and should scare everyone in CC
