Subject: Alternative 3.e in Washougal's UGB

Good Morning Councilors,

On behalf of Mayor Sean Guard I am writing to clarify a point I made in my oral testimony on Tuesday regarding the 41-acre parcel being considered under Alternative 3.e. The request for inclusion in our UGB came from the property owner and I noted that I was not advocating for inclusion of this property in our UGB at this time, but we forwarded it to the Board because our Council wanted to honor the property owners request made to them to include it in the boundary. However, given the broad public misunderstanding of this process, and the fact that this confusion could seriously jeopardize our ability to deliver our updated Comprehensive Plan on time, the City of Washougal is not in favor of this request at this time. The City recognizes this is your decision as a Board to make but we wanted to be clear with you on the City's position.

Respectfully,
Mitch Kneipp
