5. Site Plan Review Standards. In addition to the site plan approval criteria contained in Section 40.520.040(E), the following shall apply to all development within the commercial district unless expressly exempted. 40.230.020 Mixed Use District (MX)

A. Purpose.

The mixed use (MX) district requires mixed use developments to provide the community with a mix of mutually supporting retail, service, office and residential uses. It promotes cohesive site planning and design which integrates and interconnects two (2) or more land uses into a development that is mutually supportive. It provides incentives to develop a higher-density, active, urban environment than generally found in a suburban community, and which is further expected to:

1. Achieve goals and objectives of the community framework plan and the comprehensive plan;
2. Enhance livability, environmental quality and economic vitality;
3. Accommodate and respect surrounding land uses by providing a gradual transition adjacent to lower density neighborhoods that may encircle a potential mixed use site;
4. Maximize efficient use of public facilities and services;
5. Provide a variety of housing types and densities;
6. Reduce the number of automobile trips and encourage alternative modes of transportation; and
7. Create a safe, attractive and convenient environment for living, working, recreating and traveling.

B. Applicability.

- 1 1. General. The provisions of this section shall be applied to parcels or groups of contiguous parcels
 2 designated mixed use on the zoning map.
- 3 2. Interpretation. If the requirements of the mixed use district conflict with other regulations, the more
 4 stringent of the two (2) shall apply as determined by the responsible official.
- 5 C. Definitions.
- 6 For the purposes of this section, the following definitions shall apply:
- 7 1. “Mixed use development” shall mean a group of structures planned as a single entity and containing within
 8 and/or among them a variety of complementary and/or mutually supporting uses (such as housing, offices,
 9 retail, public service or entertainment).
- 10 2. “Developable area” means that portion of the site which is unencumbered by environmentally sensitive
 11 lands to be protected and their respective buffers, designated parks and open space, public right-of-way, and
 12 road easements.
- 13 3. “Building footprint” means the area contained within the exterior building walls of the ground floor of a
 14 building plus the area of any portion of upper floors that extend outside of the footprint of the ground floor.
- 15 4. “Cottage housing” means a collection of small single-family detached dwelling units arranged around a
 16 common open space.
- 17 5. “Mixed use building” means any building that combines both permitted residential and nonresidential uses.
- 18 6. “Net ground floor area” means nonresidential floor area and excludes parking areas.
- 19 7. “Senior housing” means dwelling units specifically for occupancy by persons fifty-five (55) years of age or
 20 older.

21 D. Uses. The uses set out in Table 40.230.020-1 are permitted or conditional in the mixed use (MX) district.
 22 Residential uses are permitted so long as the minimum required densities of this section are met. The appropriate
 23 review authority is mandatory.

- 24 • “P” – Uses allowed subject to approval of applicable permits.
- 25 • “R/A” – Uses permitted upon review and approval as set forth in Section 40.520.020.
- 26 • “C” – Conditional uses which may be permitted subject to the approval of a conditional use permit as set forth in
 27 Section 40.520.030.
- 28 • “X” – Uses specifically prohibited.

¹ All new development is subject to the Mixed Use Design Standards per Section 40.230.020(F).

² Provided that single-family detached account for no more than thirty percent (30%) of the total dwelling units on the development site.

³ For purposes of density calculations, accessory dwelling units shall qualify as a dwelling unit.

⁴ Provided they account for no more than fifty percent (50%) of the total dwelling units on the development site including the open space.

⁵ Development site ten (10) acres or greater.

⁶ Development site twenty (20) acres or greater.

⁷ Finished product retailers with primary fabrication or assembly on-site with an entirely enclosed building.

1 ⁸ Drive-through, drive-in or drive-up facilities are an allowed use for branch banks only.

2 ⁹ These areas must be identified and approved on the site plan.

3 (Amended: Ord. 2010-08-06; Ord. 2011-03-09; Ord. 2011-06-14; Ord. 2011-12-09; Ord. 2012-02-03; Ord. 2012-06-

5 E. Mixed Use Standards.

6 1. Residential.

7 a. Whether within a single building or on a development site, a minimum of twenty percent (20%) of the
8 development shall be nonresidential and a minimum of twenty percent (20%) of the development shall be
9 residential. This percentage shall be calculated by determining the percent of developable area devoted to
10 each type of use. For mixed use buildings, the percentage shall be calculated by one (1) of the following
11 methods:

12 (1) The percentage of total building’s floor area devoted to residential to nonresidential uses.

13 (2) The percentage of net ground floor area (for nonresidential uses) to gross ground floor area
14 (residential and/or parking areas).

15 b. Exception. The responsible official may allow a reduction in the percentage of required nonresidential
16 uses as required in Section 40.230.020(E)(1)(a), to a minimum of five percent (5%) provided all of the
17 following criteria are met:

18 (1) The development includes a vertical mix of uses in one (1) or more mixed use buildings. This
19 shall include space for nonresidential uses on at least a portion of the ground floor and residential uses
20 on one (1) or more upper floors;

21 (2) The development site is not larger than two (2) acres; and

22 (3) All ground floor residential units facing a public street shall maintain a minimum structural
23 ceiling height of thirteen (13) feet to provide the opportunity for future conversion to nonresidential
24 uses.

25 c. A minimum density of twelve (12) dwelling units per acre is required. This shall be based on the
26 developable area devoted to residential use. If the development site is greater than five (5) acres and less
27 than fifty (50) acres, the residential use shall contain a minimum three (3) permitted housing types as set
28 forth in the Mixed Use Design Standards in Appendix A of this title. If the development site is fifty (50)
29 acres or more, the residential use shall contain a minimum four (4) permitted housing types as set forth in
30 the Mixed Use Design Standards in Appendix A of this title.

31 d. The maximum density shall be forty-three (43) dwelling units per acre. This shall be based on the
32 developable area devoted to residential use. Exception: There shall be no maximum density for buildings
33 featuring vertical mix of uses. To qualify, nonresidential uses (net ground floor area) shall occupy at least
34 fifty percent (50%) of the building’s gross ground floor area. Residential uses shall occupy one (1) or
35 more upper floors.

36 e. Conversion of Existing Structures. An existing residential structure may not be converted to a
37 commercial or office use unless consistent with this chapter.

38 2. Nonresidential. All uses on the ground floor must maintain a minimum structural ceiling height of thirteen
39 (13) feet.

40 (Amended: Ord. 2011-08-08)

1 F. Design Standards. All new development shall be designed in accordance with the Mixed Use Design Standards
 2 as set forth in Appendix A of this title.

4 G. Incentives. A reduction of the TIF may be granted pursuant to this section with the implementation and
 5 maintenance of the corresponding action in Table 40.230.020-2 on approval of the responsible official.

 9 under Section 40.520.040, Site Plan Review, and Table 40.510.050-1, Application Submittal Requirements.
 10 The mixed use site plan shall be processed under the Type III review process, per Section 40.510.030.

11 a. The applicant for a proposed mixed use development shall certify that two (2) or more of the
 12 following have been involved with the preparation of the preliminary mixed use development plan:

 19 materials to and communicating with the responsible official with respect to the concept and details of the
 20 development plan. This applicant designee shall act as a liaison between the responsible official, the
 21 design team and the applicant. The selection of this liaison shall not prevent the applicant or any member
 22 of the design team from conferring with the responsible official or presenting material to the responsible
 23 official. The responsible official may require that the expertise of other professionals be used in the
 24 planning and development of the mixed use development if it is determined that the site merits special
 25 consideration due to particularly unusual or adverse features or conditions.

26 c. All plans and specifications required for the development shall be prepared and designed by engineers
 27 and/or architects licensed in the state of Washington.

2 neighborhood meeting guidelines established by the county.
- 3 a. The neighborhood meeting shall be held within ninety (90) days prior to submitting the application.
- 4 b. The applicant shall send a notice of the meeting at least fifteen (15) days prior to the neighborhood

- 14 (3) The responsible official.
- 15 c. The notice must identify the date, time and place of the meeting and provide a brief description of the
16 proposed development.
- 17 d. A copy of the notice, proposed development plan as presented at the meeting, the mailing list, meeting
18 summary and the sign-in sheet from the meeting shall be submitted with the application.
