Subject: Support the County's zoning map in the Mill Creek Area

After years of working on County ordinances and with groups to further the vision of Clark County, I want to support the County's efforts on the Comprehensive Growth Plan to maintain a rural focused lifestyle while planning and managing higher densities. Protecting the valuable open space, trails, equestrian and rural lifestyle in Clark County is what makes Clark County a desirable place to live.

The **Mill Creek District Overlay** was the result of a multi-year effort of planning working together as a community with stake holders and County Planners. We support the County's zoning designation of the Mill Creek District Overlay in an effort to provide creative community development focused around the defined vision statement and elements identified in the planning documents.

We look forward to furthering the planning in this area and maintaining the rural lifestyle and open space with in a community development plan.

Kind Regards,

Mary Ann Simonds
