Subject: Public Policy of Chapter 11 - mandatory - permeates through the Comprehensive Plan - For the Public Record

Dear Councilors and Commissioners,

Chapter 11, Community Design Element sets the stage for mandatory policies throughout all of the Elements of the Comprehensive Plan. Different than what Oliver Orjiako claimed on May 24, 2016 at a joint work session/hearing, these policies consistently use the terms, direct and shall. An example:

On page 3 of Chapter 11 - Goals and Policies - Countywide Planning Policies, it states:

- 1.0.1 - The community design element shall help conserve resources and minimize wastes
- 11.0.2 The county's community design standards shall be appropriate to the region,and compatibility with the climate

Clark County Citizens United, Inc and its members reject these policies contained in Chapter 11, of the Comprehensive Plan and all of the associated language that is permeated within and throughout all of the other Elements. We are opposed to all of the language derived from the designated source documents and insist that all of this language pertaining to and associated to this Chapter, be removed.

Sincerely,

Carol Levanen, Exec. Secretary
Clark County Citizens United, Inc.
