Subject Adopt Alt #4

Comments

We recently attended the open house at Hockinson High School regarding the Comprehensive plan update. We request to have our opinion continue to be heard, and so, as long time land owners in Clark County Washington, we request to have the comprehensive alternative #4 plan adopted and passed as it seems to be the most logical/fair choice for larger land owners. While we would like to get back to where five acres lots were available to "everyone", but we understand the growth analysis and environmental growth implications of that "once" land owner right are simply not doable. We are urging alternative #4 to be adopted. To stay stagnant with alternative one would be a total waste of tax payer time and tax dollars regarding the previous long arduous months/years of meetings and research. We thank you for your time and consideration of our request alt #4. Respectfully, Valerie and Dave Larwick 26268000, 986027184, 986027183, 986027185
