Thank you for the current links and updates, but I'm sorry the path that Clark County is taking is flawed and costing CC more money as they still flow the status quo that was started with the first GMA. It's not planning for the future, it's destroying an area that can't support the density deemed on everyone. As we see roadways fail from all the density since the early 1990s.

No need to reply, I'll continue to sit back and watch karma unfold.

Sincerely,

Lynn Carman
