Subject: RE: Urban/Rural Split

Oliver,

The current urban/rural split based on units is 87/13 and based on population is 86/14

Subject: Urban/Rural Split

Hello Ken:

Please, do you have or know what today's urban/rural split is? This question may come up at the May 14 Board work session on planning assumptions. We are still recommending a 90/10 split but need to know the current split. Thanks.

Best- Oliver
