Dear Commissioners,

You don't need to bother telling me who Berk is, I've read about them and know what they are and what they do. It is unfortunate that Clark County went to these people for advice. That tells me a lot about the direction the county is going. I cannot, nor do I believe the CCCU Board can support such an organization. You have a wealth of information from legitimate sources, particularly the federal government and the Growth Management Act, to be able to intelligently decide what direction you should go. You know the history of what happened. You know of numerous court actions that clearly tell you what was wrong. I think it is now up to you to do the right thing, and you have numerous documents to help to guide you through it all. Simply reading the GMA and adhering to it's directives would be a good start.

Best Regards, Carol Levanen, Ex. Secretary, CCCU, Inc.
