Comment:

1) There should be more alternatives - I suggest you look at reduction of urban growth areas in some cases - what would be the implications? (I know such an alternative would not be adopted, but it should be looked at.)

2) An alternative that promotes working open spaces -

Elements that should be looked at:

1) water, clean & abundant; 2) stormwater & stormwater

pollution; 3) wetlands, even small ones help deal with stormwater;

4) wildlife & fish; 5) natural areas, in general; 6) wild fires & the

urban-wildland interface; 7) hazardous areas including steep slopes &

gladways; 8) agriculture & ag & forest soils; 9) transportation including walking/cycling

Would you like to be added to our notification list? If so, please print your E-mail address clearly below:
