Good morning Chris:

Thank you for your email, inquiry, and request. In response, the Merrit rezone request is docketed as part of the comp plan update process. As I indicated in the past the burden is on Mr. Merrit to argue for a de-designation of his property from forest resource to a rural 5 zoning.

It is important to note that the completion of the current plan update is due June 30, 2016 to the State per our obligation and GMA requirement. The property owner can supplement his request from now until the Planning Commission recommends and the Board of County Commissioners through the public hearing process makes the final decision. Please, if you have questions, let me know and feel free to contact Jose Alvarez at 397.2280 ext. 4898. Jose is the project manager on plan amendment and zone changes. I am copying Jose, Chris Cook, and Mary Beth O'Donnell who indexes our comp plan correspondences. Thank you.

Best- Oliver

Dear Mr. Orjiako,

Is the Merrit rezone request from F2 to R5 in the process for the comp plan update? If it is not or something is missing that they need to put into their request could you please let me know as soon as possible so that their request is considered as soon as possible. Thank you.

Marilee
Why did you send this to me? I don't see any connection, but I am far from versed in land use would it be good for me to put my property into rural land Bank—although it is cr-1 designation

Schedule to change for briefings on rural industrial land bank
Vancouver, WA – Clark County has updated the schedule for briefing the Board of County Commissioners and Planning Commission on a proposal for a rural industrial land bank along State Route 503. The proposal includes 602 acres in the vicinity of Northeast 119th and 149th streets south of Brush Prairie.

County staff will brief the commissioners during a work session at 9 a.m. Oct. 1. Staff will brief the Planning Commission in a work session at 5:30 p.m. Oct. 2. Both meetings will be open to the public on the sixth floor of the Public Service Center, 1300 Franklin St.

If the land bank is established, zoning would change from agricultural to light industrial. No heavy industrial uses would be allowed. The land could provide work sites for local residents near the Chelatchie Prairie Railroad.

More information is at www.clarkwa.gov/planning/landbank/index.html. Anyone interested can sign up for email to receive project updates, including public hearing schedules when determined.
