**Subject:** Comp plan update

**Comments:**

None of the proposed options for updating parcel sizes go far enough. The most restrictive zoning should be a 6 acre minimum parcel size. This would allow more families to have the freedom to own some acreage. The 6 acre size would allow for a 1 acre home site area and the balance of the acreage could be used for farm or forestry. If there are only three options available, then we would support option # 2 Thanks
