I am emailing today in response to the postcard we received last week announcing the possibility of zone changes in our part of the county.

The hope of a zone change in our area comes as a happy and surprising possibility to us. We are an elderly couple who purchased our 40 acre forest property nearly 45 years ago in hopes it would be our security in our later years. Expecting that we would be able to sell 1/2 or so, to aid us financially when we would need some extra money most.

As fate would have it, this seems to have become an impossibility due to zone changes and then the deep economy changes several years past.. We are now left in a position that we would have to find a buyer that would be able to purchase entire 40 acres. However we want to be able to stay on our farm, sell 1/2 and be in the financial situation we hoped for.. We do hope the zoning changed will come to fruition, that would allow us to do just that.

I would like to come to one of the scheduled meetings, but since I am the only driver, and fearful of the thought of a 40 + mile round trip in the dark. I just won't be able to drive to either meeting spot.

.Thank you, we look forward to the up-coming decision..
