**Subject:** correct maps For the record

Dear Commissioners,

CCCU has presented in the record, large maps depicting parcelization and zoning and determined non-conforming parcels within each section. In subsequent maps we determined correct and accurate resource land soils. We are reviewing the soils maps overlaid with section lines, as they relate to the sections with non-conforming parcels in resource zones, in the large maps. A comparison is being made. CCCU believes this will clearly determine where inappropriate resource land zoning has occurred in the past and where corrections need to be made to the zoning maps in the 2016 Comprehensive Plan update.  
Sincerely,

Carol Levanen, Ex. Secretary  
Clark County Citizens United, Inc.
