Subject: Preparation for February 18, 2014 Board of County Council work session

Hello Peter

Community Planning traditionally will prepare for a Board work session relating to the county comprehensive plan. As you are aware, Council directed that we stop the SEPA process until a 4th Alternative is developed. Are you presenting the 4th Alternative as proposed by CCCU to the Board of County Council on February 18? I need to know because the proposed alternative, a map, and related documents need to go upstairs and posted on Grid by Thursday, February 12, 2015. Please, let me know if you have questions. Thank you.

Best - Oliver
