BOCC WS

Hello Chris:

Gordy did some research on the zoning of other counties fully planning under the GMA. He is out of the office. Jose will be looking into that again. I will look into areas mentioned in Mr. McIsaac's letter. Thanks.

Best- Oliver

Hi All,

It would be useful to know about the Features listed on page 2 of Mr. McIsaac's letter (table titled "Alternative 4 elements Compared) as having "precedence in other Counties." Which GMA counties, if any, incorporate the features that he claims are used by other jurisdictions, and what are the characteristics of those features?

Now the meeting is tomorrow. If we could dig up any of this info by tomorrow's work session, it would be excellent. If not, we should look into it anyway, because WAC 365-190 requires that the county consider what other counties are doing, and to be able to provide some research-based truth to the commissioners would enhance our credibility.

Thanks,

Chris

Councilors,

Please see attached letter regarding decisions that might be made on February 18 regarding the addition of a new alternative to the Comprehensive Growth Management Plan update, as noticed to the public.

I regret I will not be able to attend the upcoming BOCC work session, but have been committed to another meeting in Washington DC for nearly a year. We ask that you consider this letter as you work your way through these important considerations Wednesday.

Thank you,
Don McIsaac
