**Interactive proposed zoning map now online:**

Congratulations to our GIS (Geographic Information System) staff for equipping citizens with the ability to navigate the proposed zoning map for Alternatives 1 – 4.

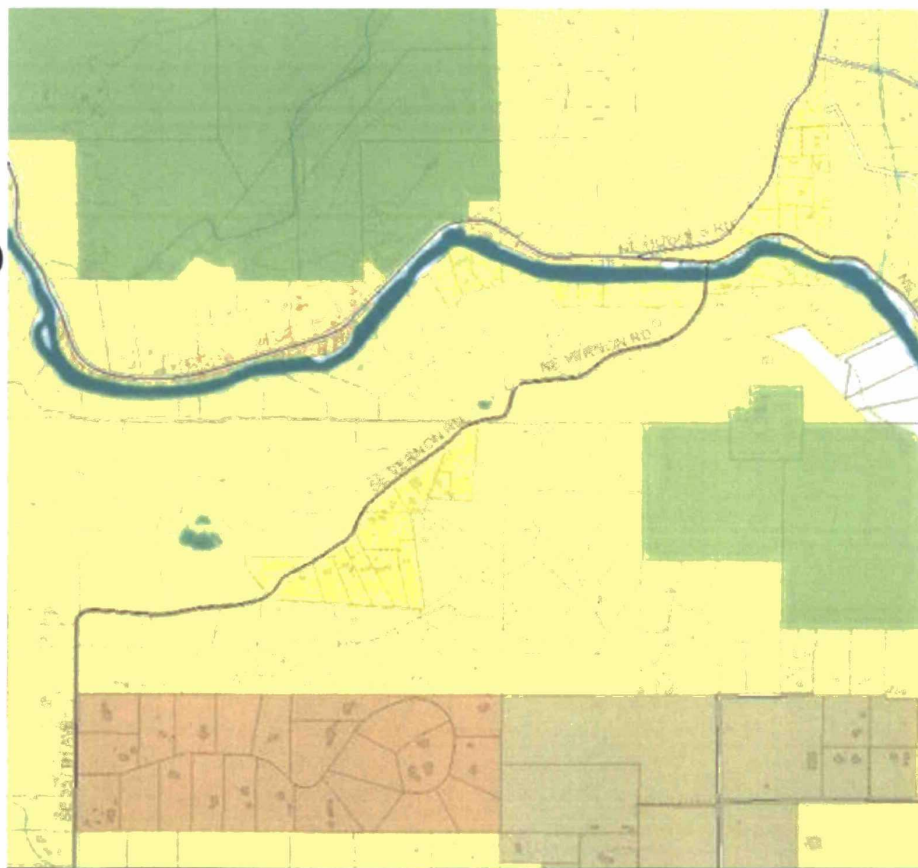

<http://gis.clark.wa.gov/maponline/index.cfm...>

The new online tool allows landowners to explore the options ahead of our Open House at Hockinson High School, 5:30 Wednesday, April 1st.

Citizens are encouraged to click the check boxes, view the color coded layer list, adjust the transparency, and see how the proposed Alternative 4 zones align with the actual parcel sizes.

I hope to see you there with staff to get your feedback as we seek to map out the future of our community for the next 20 years.

Thank God! Yea Clark County!
