Oliver:

A note from the Hockinson GMA public meeting:

A gentleman by the name of EK who owns parcels in the Hockinson area asked many question about the Alt 4 GMA option.

He commented that a plan for incremental changes would be suitable, including some of the Forest 80 to two Forest 20's might be the more workable plan.

It would give him additional flexibility, and as the County grows, later on, he could request a de-designation for some of his land.

He thinks incremental changes could provide a suitable, workable, alternative.

These are my understanding of his request based on a discussion of about 20 minutes or so.

Jeanne E Stewart, Councilor
