What's **wrong** with Alternative 4?

**Alternative 4** flies in the face of state law, the Growth Management Act, by knowingly creating conditions that:

- Support suburban sprawl and diminish the size and productivity of agricultural lands, creating over 15,000 new rural lots
- Sets the stage for the associated infrastructure failures, negative environmental impacts on air and water quality and wildlife protection
- Creates real risk to the depletion of ground and surface water supplies

**Alternative 4** also creates credible financial risks to taxpayers in the form of:

- Increases in property taxes to all property owners and especially to some rural landowners
- Property value increases due to zoning so even if citizens don’t divide and develop their land, taxes will still increase
- More pressure on rural schools and public services, furthering tax increases
- Costs to defend against lawsuits re non-compliance with GMA process, rules and regulations

**Tell Clark County Councilors you **DO NOT** want Alternative 4 considered in the Comprehensive Growth Plan Update.**

**What’s **BEST** for Clark County Taxpayers?**

**Alternative 1** is the best choice:

- Already plans for 7000 new lots according to population assumptions adopted by the county
- Stays out of legal entanglements, which keep taxes down, emergency services reliable and our water supply protected

Please fill out this sheet and let the County Counselors know **YOU SUPPORT ALTERNATIVE 1**

Comments: Alternative A is by far the best choice for this community to maintain environmental viability, to protect and preserve natural resources. Most importantly, water supplies must be protected and wildlife deserves a chance to survive.
What's wrong with Alternative 4?

There is only one clear deliberate choice. Alternative 2! We must make decisions for the future, not simply the present. We must protect and preserve our and future generations' natural resources. We must not simply survive—but thrive now and into the future!
What's wrong with Alternative 4?

Alternative 4 flies in the face of state law, the Growth Management Act, by knowingly creating conditions that:

- Support suburban sprawl and diminish the size and productivity of agricultural lands, creating over 15,000 new rural lots

Comments: It is in the best interest of the State and County to maintain, preserve, conserve and protect land for the production of food, fiber and forest. Alternative 4 increases property taxes, it threatens our water supply, natural resources and scenic beauty.
