

8/31/15

Comments on the SEIS of the Comprehensive Plan  
are due by 4 p.m. Thursday, Sept. 17.

- On-line: [www.clark.wa.gov/planning/2016update/comments.html](http://www.clark.wa.gov/planning/2016update/comments.html)
  - e-mail: [comp.plan@clark.wa.gov](mailto:comp.plan@clark.wa.gov)
  - In writing: P.O. Box 9810, Vancouver, WA 98666
- OR leave them with at the Clark County Food System Council welcome table!

"Alternative Four" appears to come into conflict with many laws, rules and regulations regarding agricultural use, density, water use and other areas of the law.

In addition more forest lands are lost under Alt. 4 than the other plans.

The impact on the County of Alt. 4 will not be felt entirely at first, although certainly increased traffic and populations will be felt immediately. The long term effects of water use by more residential growth, will not be evident for generations.

The increased warming of water and climate change is the result.
