Good morning, Carol:

Thank you for your reply and concerns relating to the growing healthy report. Here is a link to the amendment and adoption of the growing healthy report. The then Board with Commissioner Mielke adopted the plan and directed that it be folded into the comp plan document. I will review our work sessions and meetings but I don't recall this present Board directing staff not to do so. If you have questions or problem accessing the link, please let me know and I will ask CVTV to send us a CD copy which you can borrow. Thanks.

Best,

Oliver
