Subject: Growth Management Plan

Comments

1) The Growth Management Plan needs to contain a grandfather clause so that the rights of long-time property owners in Clark County are honored. The government should not pull the rug out from under the plans that people and families have made through the years.

2) Clark County should not require larger minimum lot sizes than the State GMA requires. Families should be able to keep property in the family by dividing it among themselves, or by selling off a portion if needed.
