Subject: RE: Question about the news release

Good morning Chad

We have always ask our City partners to sit at the table and participate in the discussion at BOCC work sessions. The wording in the press release I believe was intended to say that those in attendance may speak. While it says "organizations with rural concerns" it is not intended to exclude anyone. I hope this is helpful. Please, call or let me know if you have further questions. Thanks

Oliver

Subject: Question about the news release

Hi Oliver,
It may be unintentional, but the wording of the hearing notice appears to indicate that only people with rural-related concerns will be able to comment. Of course, the City of Vancouver will want the opportunity to comment on urban issues as well

Vancouver, WA -- The Board of County Councilors has invited local city officials and the county Planning Commission to join in a work session to prepare for public hearings on a "preferred alternative" to update the local growth management plan.

Organizations with rural concerns also are encouraged to attend and may address planning issues under consideration

Can you please clarify this for me?

Thanks, Chad
