I've added my dialog to the marked up document that you emailed. It is attached. This dialog is helpful to consider the arguments for and against column B. In the end, I trust that Planning will support the Board's policy and that staff reports will reflect that policy. Internal drafts are useful to help us all understand these proposals better. These internal draft documents are not intended to be published to other bodies as they will obviously be considered as advocacy by staff to oppose proposed Board policies. I trust that as the Board chooses particular proposals, as we have by advancing column B in our work session, that staff will not continue to advocate against those policies, but instead provide support for the proposed or adopted policies. Please let me know if I understand correctly. Thank you,
David
