**Subject:** FW: Public process violation

Hello,

Here is a letter from the attorney for Friends of Clark County. Rebecca, please provide this to the Councilors. Oliver and Kathy, this would appropriately be added to the record of the decision.

Thank you.

Chris

Subject: Public process violation

Chris, given the length of the hearing so far, I am no longer able to be present today. This is why I wrote in my letter that this hearing should never have been scheduled during the workday and with such a heavy agenda. I have to be at court appearance in Portland at 1:15 today. In addition, I have to be at the marshals lock up before that time to meet with my client. I just checked CTV and saw that the storm water hearing is on and they have not taken a break yet this morning. I assume that the comp plan hearing will not start until at least noon. I do not believe the scheduling of this hearing meets the spirit or the letter of the public participation resolution. This email supplements the letter I sent regarding the inadequacy of the public process on the comprehensive plan update. I will copy Ms. Tilton with it when I am able today.

Best regards,

David McDonald
