**Subject:** RE: Thorpe Contract

Hello Councilor

On December 3, 2016 you provided via email four additional documents and asked that the materials be included in the Thorpe binder and the same information be made available to ESA. That was done immediately and I believe it included Exhibits A & B and the planning assumptions adopted by the Board on November 24. Are there any other documents you want staff to send to the consultants. Please, advise. Thanks

Oliver

Oliver,

On December 9, we amended the Thorpe Contract during our BOCC meeting to change from the assumptions introduced on November 4 to those adopted on November 24. Please confirm that those changes were made and that Thorpe is working with the right version.

Thank you,

David
