Dear Councilors,
Comprehensive Plan update

For the Public record and the 2016

It has come to Clark County Citizens United, Inc's attention that the resolution scheduled for the January 5, 2016 Councilor hearing, that rescinds the resolutions adopted on December 22, 2016, was actually created prior to the December 22 adoptions and made available on the Grid on December 23, 2015. It would have been illegal for Councilor Olson and Councilor Boldt to have authored or authorized such a document for distribution. Therefore, one of the other standing councilors would have been responsible for the creation of the January 5, 2016 resolution, in advance. If staff was responsible for the January 5 resolution, that also would be illegal, as they are advisory only and are not the legal administrative body to make such decisions under the GMA.

The resolutions adopted on December 22, 2016 are the people's resolutions and come from a formal vote of the people. It is legally appropriate for these resolutions to be adopted by the Council. In fact, they are long overdue, with dates going back to 2013 and 2014. When voters decided what and how Clark County must be run and the policies to take, all of the councilors should be expected to support that decision, whether they agree or not. Councilors Mielke and Madore were simply doing the people's work as elected representatives, when they were housekeeping at the end of the year. The rest of the council should thank them for their due diligence, be supportive of their efforts, and be glad that the work was done. What we see is partisan bickering on a Council that has all Republican members. How can that be? The voters have spoken on a number of items, and the council cannot pick and choose. The must support all.

CCCU, Inc. ask the Councilors to support the December 33, 2015 adopted resolutions and reject the January 5, 2016 resolution to rescind. The January 5, 2016 resolution to rescind could be revised to allow the public more consideration of the documents by the councilors reviewing each one at a subsequent hearing, as might be necessary. The people clearly said they do not want business as usual, and staff should not be in charge, as it was in the past.

Sincerely,

Carol Levanen, Ex Secretary
Clark County Citizens United, Inc
