

2/16/2014

We do not support the creation of new R1 and R2.5 parcels from existing R5 and R10 parcels as noted in 2a and 4a. The map showing new R2.5 parcels

creates new small 1 + 2.5 acre parcels that are not an insignificant number as claimed in notes 2a + 4a. The negative impacts of proliferation of small parcels include:

- increasing density of new wells and septic fields with falling water tables
- increasing traffic on both paved and unpaved roads already stressed by current use levels
